Referral process for EIPIC

1

Touch Points (TP)

KKH Department of Child Development (DCD),
NUH Child Development Unit (CDU)
or Private Paediatric Clinics

To assess and recommend EI program

- **Doctor** recommends child for Early Intervention (EI), to maximize his/her developmental potential
- **Parents** submit EI application form to the TP
- **Touch Point** will process the EI application with relevant information on child's needs to SG Enable. Do check with the TP on their processing time.

2

SG Enable (SGE)

To provide Information and Referral Services

- **SGE Case Officer** receives the EI application; contacts parents to share information based on recommended program
- **Parents** provide consent for referral to EI
- **SGE Case Officer** refers child's application to EI

3

EI Operators

Social Service Agencies (SSAs)

*To assess and provide recommended
EI service:*

EI@Centre, DS-Plus or Under 2 Programme

- **EI Operator** will contact parents to acknowledge child's application
- **Child** will be scheduled for an intake assessment or screening, **accompanied by parent**
- **EI Operator** will notify parents regarding child's projected enrolment date and other matters such as pre-admission, fees, transport, etc.

Some key factors to consider when selecting an EI Centre

Estimated Wait Time (EWT)

— from the point of SGE referral to child's enrolment

Each EI Operator will update its EWT based on their centre's current capacity and resources

Caregiver's Presence

Based on EI Operator's assessment, an adult caregiver may be required to sit in with child during the session

Location of Centre

- Home: *current or future area of residence*
- Child's childcare or preschool
- Caregiver's location/ workplace

Transport Services

- Some EI Operators offer optional transport services
- Subjected to charges and availability
